Dealer Comments
Meet the 2012 Chrysler 300, a used sedan that still feels composed on the road. The long hood and dual exhaust tips give it a confident presence while the cabin air filtration keeps the interior fresh. Backing into tight spots is easier with the rear camera, and bluetooth keeps calls and music hands free. A tire pressure monitor and a security system add practical peace of mind for daily driving. Take it for a test drive and see how it fits your routine.
